

NozzTeq®
Taking Science to the Sewer®

866-620-5915

NO SLED REQUIRED

10 Year Warranty

BL MISSILE™ SEWER NOZZLE

HEAVY DUTY CONSTRUCTION

- BL Missile was developed to be used without a sled and is the obvious complement to the JAWS® sewer nozzle.
- QUALITY STAINLESS steel construction with optional sled or sleeve.
- Sleek design prevents nozzle from “getting stuck” in sewer and storm pipes.
- We use the same Tier III technology with looping the water around in tubes for a powerful water stream.
- Optional front jet for those stubborn blockages.

WHY Nozzteq? Because our Equipment is Engineered for Long Lasting Performance!
