SPINNING NOZZLES

NO REBUILDS OR OIL!

SPINNER™ SEWER NOZZLE

EFFECTIVE GREASE REMOVAL

- No Oil, Rebuilds, bearings, expensive magnets or daily maintenance. Just wash it down at the end of the day and use it trouble free daily.
- HIGH QUALITY stainless steel and brass construction for maintenance free conditions and to minimize any breakdown while using in in corrosive sewer lines.
- Low jet with rear thrusting jets for maximum thrusting power.
- Has reversible body when you need to penetrate those stubborn blockages or use it as normal spinning sewer nozzle.
- NozzTeq Spinner is flexible and effective on removal of grease, smoother deposits, small roots etc.

WHY Nozzteq? Because our Equipment is Engineered for Long Lasting Performance!
